

Sleep Hygiene Plan

Greater Nashua Mental Health Center

Instructions: Sleep hygiene is a set of habits that support healthy sleep. Pick a few changes to focus on rather than all at once. If sleep problems persist despite good habits, talk with your clinician.

Sleep hygiene checklist

- ☐ Consistent wake time, 7 days a week
- ☐ No screens 30–60 min before bed
- ☐ Bedroom dark, cool, and quiet
- ☐ Caffeine cut off by early afternoon
- ☐ No large meals or alcohol close to bedtime
- ☐ Bed used for sleep only (not work/scrolling)
- ☐ Wind-down routine (reading, stretching, breathing)
- ☐ Get up if awake >20 min, return when sleepy
- ☐ Daytime light exposure / movement
- ☐ Limit naps to early afternoon, under 30 min

My sleep plan

My target bedtime and wake time:

Two or three habits I will change this week:

Simple sleep diary (1 week)

Day	Bedtime	Wake time	Hrs slept	Quality 1-5	Notes
