

Trigger Tracking & Coping Log

Greater Nashua Mental Health Center

Instructions: Tracking triggers builds awareness of what activates trauma responses or strong urges, and what helps. Over time, patterns emerge that you and your clinician can use to plan coping ahead of time.

Trigger log

Date/Time	Trigger (what happened)	Body/emotion response	Coping I used	Helped? 0-10

Patterns & planning

What triggers show up most often (people, places, sensations, times of day)?

Earliest warning sign in my body that a trigger is building:

My go-to coping plan when I notice that early warning sign:
