

Behavioral Activation Schedule

Greater Nashua Mental Health Center

What is Behavioral Activation? When we feel depressed, we tend to withdraw from activities that once brought us pleasure or a sense of accomplishment. Behavioral activation works by gradually re-engaging with these activities, even when motivation is low. Track your daily activities and mood to identify patterns and build momentum toward positive change.

Weekly Activity Schedule

Record your planned and completed activities. Rate your mood for each time block (1 = very low, 10 = great).

	Mon	Tue	Wed	Thu	Fri	Sat	Sun
Morning (6am–12pm)	Activity: Mood: __ /10	Activity: Mood: __ /10	Activity: Mood: __ /10	Activity: Mood: __ /10	Activity: Mood: __ /10	Activity: Mood: __ /10	Activity: Mood: __ /10
Afternoon (12pm–5pm)	Activity: Mood: __ /10	Activity: Mood: __ /10	Activity: Mood: __ /10	Activity: Mood: __ /10	Activity: Mood: __ /10	Activity: Mood: __ /10	Activity: Mood: __ /10
Evening (5pm–10pm)	Activity: Mood: __ /10	Activity: Mood: __ /10	Activity: Mood: __ /10	Activity: Mood: __ /10	Activity: Mood: __ /10	Activity: Mood: __ /10	Activity: Mood: __ /10

Values Connection

Activities are more sustainable when they connect to your core values. List your top values and link planned activities to them.

Value	Connected Activity

Weekly Reflection

1. Which activities improved my mood the most this week?

2. What got in the way of completing planned activities?

3. What is one new activity I want to try next week?

4. How did my overall mood change from the beginning to the end of the week?
