

CBT Thought Record

Greater Nashua Mental Health Center

Instructions: Use this worksheet to identify and challenge automatic thoughts. When you notice a shift in your mood, record the situation, the thought that came to mind, and examine the evidence. Then develop a more balanced perspective.

Situation (What happened?)	Automatic Thought	Emotion (0-100)	Evidence For	Evidence Against	Balanced Thought	New Emotion Rating (0-100)

Reflection: After completing this record, what patterns do you notice in your thinking?
